BULLDOG COMBO

COMBINATION BASEBALL/SOFTBALL MACHINE

The Bulldog Combo is the perfect machine for adult or youth baseball and softball programs. It uses tested Curvemaster technology to throw consistent and accurate pitches, and quickly converts from baseball to softball. It delivers baseballs up to 95 mph and softballs up to 80 mph. The Combo also throws an assortment of breaking pitches and can be quickly converted to throw fly balls or grounders. Our machine is priced well below the competition and still carries a 5-year limited guarantee!

OTHER FEATURES:

- Easy drop-in ball chute
- Moisture-resistant control box
- 360° swivel
- Runs on either 110 Volt AC or 90 Volt DC current
- Generator minimum: 1000 watts
- Quick release levers for changing directions or locations

****BULLDOGC \$1,699.00 EA.**

BALANCED REPLACEMENT WHEEL

****20001200 \$129.99 EA.**

BULLDOG II

BASEBALL PITCHING MACHINE

Compare the Bulldog II to any of the pneumatic two wheel machines on the market! We use tested Curvemaster technology to provide consistent accuracy at speeds up to 95 mph. The Bulldog II also throws an assortment of breaking pitches and can be quickly converted to throw fly balls or grounders. Our machine is priced well below the competition and still carries a 5 year limited guarantee!
